

U.S. AGREES TO CRISIS TALKS WITH FRANCE

Dirksen, Mundt Testify Adams Sought Help

Say They Were
Asked to Prevent
Committee Subpenas

WASHINGTON (AP)—Two senators testified today that John G. Adams brought up alleged improper pressure on the Army by Roy M. Cohn in seeking their help to prevent subpoenaing of Army Loyalty Board members.

Adams, the Army counselor, stepped aside temporarily as the witness in the 17th day of the Army-McCarthy hearings and was succeeded in order by Sen. Everett M. Dirksen (R-Ill.) and Chairman Karl E. Mundt (R-S. D.).

Both said Adams asked them to help knock down subpoenas that Sen. Joseph R. McCarthy's investigating subcommittee had issued for Army Loyalty Screening Board members.

They also said Adams coupled his request with disclosure that the Army had prepared a report on the efforts of Cohn, the McCarthy subcommittee counsel, to obtain special favors for Pvt. G. David Schine.

A third Republican member of the subcommittee, Sen. Charles E. Potter (R-Mich.), also volunteered to testify, but his testimony was postponed until the afternoon session.

Establish Visit by Adams

The testimony of Mundt and Dirksen established that Adams and Gerald Morgan of the White House staff visited Dirksen on Jan. 22, and Adams alone visited Mundt on the same day.

Mundt said Adams discussed the proposed subcommittee subpoenas for the Loyalty Board. He said Adams suggested that board members were immune from such subpoenas on ground they exercised quasi-judicial duties.

He said Adams then brought up the question of how Cohn had put pressure on him to obtain preferential treatment for Schine.

Mundt said he was "frankly uneasy about the juxtaposition" of the two subjects—the subpoenas and the telephone calls from Cohn seeking favors for Schine.

"I told Adams that, if I were running the Army, there would be no problem after the second telephone call," Mundt said.

Dirksen was sworn as a witness in the Army-McCarthy hearings after Adams had bluntly denied a "false" McCarthy charge that he had told other subcommittee members the Army would release an unfavorable report on subcommittee counsel Roy M. Cohn if the subcommittee persisted in attempts to subpoena the Loyalty Board members.

When Adams denied he had threatened to make public a report on Cohn, Sen. Stuart Symington (D-Mo.) said the three members of the subcommittee with whom the Army counselor dis-

Rev. J. D. McCarty

Rev. McCarty to Begin McKinley Pastorate Sunday

The Rev. J. D. McCarty, of Murphysboro, will be present for the Sunday services at the McKinley Avenue Baptist church, to begin the pastorate for which he was called by the congregation two weeks ago.

Rev. McCarty, who is 36, is a graduate of the Herrin high school and at present is a senior at Southern Illinois university, where he will continue his studies on week day mornings, graduating next spring.

Coming to Harrisburg from the Pleasant Ridge Baptist church at Cobden in Clear Creek Association, where he was pastor for some three years, Rev. McCarty led this 100-year-old rural church from half-time to full-time services for the first time since its organization. Also during his pastorate the Sunday school was departmentalized, a Brotherhood was organized and 52 persons were received into the church membership, 40 by baptism and 12 by letter.

Rev. McCarty and Mrs. McCarty have two sons, Philip Dean, 17, who will graduate this year from the Murphysboro high school, and Billy Joe, 7. They will move into the church parsonage at 507 South McKinley avenue the first week in June.

District Officers Elected by VFW and Auxiliary

At a meeting of the new 15th Illinois district of the Veterans of Foreign Wars held at Anna Wednesday evening, Commander Robert Calcaterra of the Herrin post was elected district commander, and Mrs. Pearl Brown, Eldorado, was elected district auxiliary president.

Commander Hollie Stout of the local post was elected trustee for a term of one year. The Harrisburg auxiliary provided four officers as follows: Ann Stout, treasurer; Anona Dalton, musician; Hazel Jones, flag bearer; and Myrtle Wagner, historian.

Mrs. Marian Sandefur, East St. Louis, officiated as installing officer for the auxiliary, and Dept. Commander Joseph Carnella of Edwardsville, for the post officers.

Among those attending from Harrisburg were Commander and Mrs. Hollie Stout, Mr. and Mrs. Roscoe Cook, Mr. and Mrs. Earl Hancock, Mrs. Hazel Jones, Mrs. Elizabeth Hindmarsh, Mrs. Bernice Wolfe, Mrs. Wilma Ashe, Mrs. Myrtle Wagner, Mrs. Anona Dalton, Harry Ramsey, Bob Hull, John Beal, Paul Golish, Harry Dutton, Bob Anglin, Wayne Shaw, Bob Barbre, and Cecil Cusic.

Miss Faye Nance to Resign from Faculty At the High School

Miss Faye Nance, girls' athletic director at the Harrisburg Township high school, has recently made known her plans to resign from the school faculty in June after teaching in Harrisburg for three years.

Miss Nance is leaving Harrisburg to begin teaching next year in Paducah, Ky., where she will teach physical education to girls in the seventh and eighth grades of the Southern Junior High school. She received her college education at Murray, Ky., and then taught at schools in Shipmound and Brighton, as athletic director, before coming to Harrisburg.

AEC Announces Completion of H-Bomb Tests

Three Blasts are
Far Short of
Original Schedule

WASHINGTON (AP)—The United States concluded its awesome H-bomb tests in the Pacific with the verdict that they were "successful" and "contributed materially to the security of the United States and the free world."

The Atomic Energy Commission announced the completion of the controversial experiments in a terse statement Thursday night that gave no hint of the power or the number of city-destroying bombs exploded at the vast Bikini-Enewetok Proving Ground.

But it seemed clear that the tests have been cut far short of what was planned originally. The government has officially reported only three H-bomb explosions—on March 1, March 26, and April 6.

The possibility of a fourth was suggested this week when the crew of a plane flying toward Manila the night of May 1 reported seeing what looked like a "sudden sunrise" in the direction of the Marshall Islands. A Japanese scientist also had reported sharply increased radioactivity on Osaka May 6.

Six Test Blasts
Nevertheless, very reliable sources said AEC scientists originally planned six test blasts during the 1954 series and observers here do not believe three unannounced explosions could escape public attention.

Consequently, there was speculation that the tests were curtailed either: 1. Because the first three blasts were so successful others did not seem necessary or, 2. Because it was feared additional tests might touch off a new wave of criticism among uneasy foreign nations and thus upset delicate diplomatic negotiations now in progress.

Tests Completed
In any event, Thursday night's statement made it definite that the tests have been completed. It also said:

"They were successful in the development of thermonuclear weapons. They were essential to our national interest and have contributed materially to the security of the United States and the free world."

The statement, signed by both AEC Chairman Lewis L. Strauss and Defense Secretary Charles E. Wilson, said an official notice would be sent out telling airmen and mariners that the huge "warning area" would again be open to traffic "within a few days."

The three announced blasts of the 1954 series raised the total of recorded atomic explosions to at least 57—48 United States, six Russian, and three British.

Southern Illinois Historical Society to Meet Here Tonight

The annual spring meeting of the Southern Illinois Historical society will be held tonight at 7:30 at the First Christian church, when the group will be guests of the Saline County Historical society.

A demonstration of Early American firearms from the collection of James Bond, Galatia Community high school instructor, will follow a talk "Entertainment and Amusements, Cairo, Illinois 1848-1858" by Dr. Harold E. Briggs, chairman of the history department of Southern Illinois university.

There will be an election of officers and President Wm. H. Farley of Harrisburg invites the attendance of the general public to the meeting.

TO RECEIVE DEGREE. Miss Betty Hancock, daughter of Mr. and Mrs. Arthur Hancock, 220 West Raymond, will graduate May 24 from Murray State college with a Bachelor of Science in Elementary Education degree. Miss Hancock, a member of the Association of Childhood Education, has accepted a position as first grade teacher in the Garden City Public Schools in Garden City, Mich.

Barham Says He is Not a Candidate For State Senator

LeRoy Barham, Harrisburg automobile dealer, today said that he definitely is not a candidate for state senator on the Democratic ticket.

"You can quote me on that," he said to a Daily Register reporter. Right now Barham is listed as the Democratic nominee and it came about this way: There was no candidate for state senator on the Democratic primary ballot at the April 13 voting and Barham got some write-ins.

These write-ins were sufficient for his name to be included in the official list of candidates elected and nominated at the primary, compiled by Secretary of State Charles F. Carpenter.

Today Barham said he didn't know his name was included as a candidate for state senator until a friend told him he'd seen his name in the booklet.

"I'm going to fill out any papers necessary to keep my name off the ballot because I definitely am not a candidate," he said. "And you can quote me on that."

Thus Glen O. Jones of Raleigh, the Republican nominee for state senator from this district, remains unopposed for this office.

Illinois Demos Re-Elect Ronan State Chairman

SPRINGFIELD (AP)—A three-man committee will be named to try to determine who is Knox County Democratic chairman.

The Democratic State Central committee Thursday empowered State Chairman James A. Ronan, Chicago, to appoint a committee to straighten out a party snarl in Knox county.

There are two party factions in the county. One elected Claude J. Flynn as chairman, the other picked Oria Wright. Both claim their man is the legally elected chairman.

The committee named by Ronan also will attempt to determine which of the two factions' slates for county officers and for state convention delegates should be recognized.

Ronan was reelected for a four-year term as state chairman. Re-elected with him were John F. Petit, Batavia, secretary; Edward S. Gorski, Chicago, Marshall, and Joseph E. Knight, Dow, treasurer. Alvin G. Fields, mayor of East St. Louis and member from the 24th district, was elected vice chairman to succeed William G. Lyons, Peoria.

Sitting in Thursday was the first woman ever to serve on the central committee of either party, Mrs. Eleanor Schroder Fornaciari.

The committee agreed to name a member from each district to the resolutions committee of the state convention, to draw up a suggested platform for the November election.

Ronan told reporters he felt sure reappointment of the Legislature would come up, since "it's always been on our platform." He said the committee did not discuss it Thursday. The Republican State committee last week voted in favor of the remap plan.

Ronan said it was a matter for the convention to decide. He said the party "as a whole" favors it but he wouldn't predict how the convention will vote. The convention will be held between June 20 and 30.

The committee also discussed plans for Democratic Day at the State Fair. Ronan said he thought Sen. Paul H. Douglas and possibly former Gov. Adlai E. Stevenson would be on the speakers' platform.

Two New Oil Well Drilling Permits

Two new oil well drilling permits have been issued for the area northwest of Eldorado in Eldorado township.

They are:
To the Wayne Misener Drilling Co., Box 321, Carmi, for the Sutton community No. 1, in the SE corner of the NW quarter of the SE quarter of Section 7, Township 8S, Range 7E.

To the Carter Oil Co., Tulsa, Okla., for the T. Reeder No. 2, in the SE corner of the NE quarter of the SW quarter of Section 8, Township 8S, Range 7E.

Two Youths Charged With Theft of Pigs

Eddie Wines and Arthur Jones of Galatia today were charged with petit larceny in connection with the theft of two young pigs.

The two youths are charged with stealing them from Howard Paterson of Tate township and butchering them.

They were arrested by Robert Bridwell, Galatia officer, and turned over to the county.

ATTEND OPEN HOUSE AT LIGHTNER AND HARRISBURG HOSPITALS.—Junior and senior girls from the Harrisburg, Eldorado, Carrier Mills, Galatia high schools, and one girl from Gallatin county, attended open house yesterday afternoon at the Lightner and Harrisburg hospitals in conjunction with the observance of National Hospital Week, May 9-15. The girls, divided into four groups, were shown the various phases of hospital work and how they operated. The open house was also in conjunction with National Nurse Recruitment Day. In the bottom photograph Merritt (Buzz) Kennedy, laboratory technician at the Lightner hospital, is explaining his departmental functions. (Register Staff Photos)

Indicate White House Again Pressing For End to Hearings Damaging to Party

By LYLE C. WILSON

WASHINGTON (AP)—New hope was sparking today for a fast finish of the McCarthy-Army spectacle which responsible Republicans believe is badly damaging the party's congressional election chances.

One congressional source said the White House now was suggesting a speed-up, wind-up or shut-up effort. Another source said Republican National Committee Chairman Leonard W. Hall was laying before President Eisenhower the political hazards of continuing the show.

The gimmick which this week wrecked the Dirksen plan to seek off public hearings may have been shared with Republican committee members' responsibility for the project. The record does not show that as of now. But the United Press was informed that Subcommittee Chairman Karl E. Mundt (R-S.D.) would have cast the winning vote for the Dirksen proposal if he had been positive of Mr. Eisenhower's support.

The record shows only that Ar Secretary Robert T. Stevens scuttled the Dirksen plan this week by refusing to accept it as fair to all concerned. The United Press was informed that Defense Secretary Charles E. Wilson was agreeable to the Dirksen plan to get the investigation off the public stage.

Sen. Everett Dirksen (R-Ill.) had moved that public hearings end with the testimony of Stevens and Sen. Joseph R. McCarthy (R-Wis).

Since that was voted down Tuesday, the United Press was told that representatives of the White House again were inquiring about hurry-up ways and means. They have been advised to "take it up with Stevens."

The White House word just now varies. It either is "no comment" in response to specific inquiries or friendly advice that the President is keeping hands off a muddy situation. But the word on Capitol Hill is that White House people are nudging again for a quick investigation wind-up.

There is anxiety in both Senate and House among Republicans that the McCarthy-Army fracas is seriously damaging the party's election chances this year.

SIU to Offer Four-Year Nursing Course

CARBONDALE, Ill. — A four-year nursing education program leading to the bachelor of science degree will be introduced into Southern Illinois university's curriculum in September 1955, according to an announcement today by H. J. Rehn, dean of the SIU college of Vocations and Professions.

The new course of study will extend the two-year pre-nursing program now in existence and prepare graduates to pass the state examination for registration.

Dean Rehn explains that students who enroll in pre-nursing this fall will be able to transfer to nursing education a year later without loss of credit.

The program is being set up, Dean Rehn says, to counteract the great shortage in nurses and in response to the request of doctors on hospital staffs. He also points out that area students long have been requesting such an addition to the curriculum.

In line with a national trend toward training nurses in affiliation with an academic institution instead of in hospitals alone, the SIU program will give students academic work at Southern and clinical experience in adequately equipped hospitals.

Will Discuss Conditions for Intervention

India, Burma and
Indonesia Reject
Asia Alliance Plan

WASHINGTON (AP)—The United States has agreed to discuss with France the conditions this government insists must be fulfilled before it would consider intervening militarily in Indochina, informed sources reported today.

The American-French talks will get underway "very soon," probably in Paris. U. S. Ambassador Douglas Dillon would represent the United States if the talks are held in Paris.

American willingness to review conditions revolving around intervention was communicated Wednesday to French Ambassador Henri Bonnet by Secretary of State John Foster Dulles. Informants said the only string attached to Dulles' agreement was the need for the French government to weather a vote of confidence. This it barely did Thursday.

Diplomats said France wants to find out quickly the U. S. attitude toward possible military intervention in Indochina in view of the loss of Dien Bien Phu.

Meanwhile, this country's effort to develop a broad Asian base for its proposed Southeast Asian alliance suffered a heavy blow with word that India, Indonesia and Burma will not join.

Ambassadors of the three nations made it clear in conferences at the State Department that they want no part of the united front this country is trying to erect against the sweep of Communist arms.

The turnaround was not precisely a surprise. From the outset, Secretary of State John Foster Dulles realized it would be difficult if not impossible to win the support of at least India and Indonesia.

Effort Made
Nevertheless, Deputy Undersecretary Robert T. Murphy made the effort in talks with the Burmese ambassador Monday and the Indian and Indonesian envoys Thursday.

Officials recognize that it is extremely important to enlist as many Asians in the pact as possible so that the effort cannot be undermined by charges that it is Western colonialism rather than something for Asia's own benefit.

There is increasing doubt that the three Indo-Chinese states will join. That would leave only Ceylon, Pakistan, Thailand and the Philippines as possible Asian members.

The department refused to reveal details of Murphy's talks with the Indian, Burmese, and Indonesian envoys. But a spokesman said the United States is keeping these and other members of the so-called "neutralist bloc" informed of U. S. plans.

Youth is Sentenced To State Farm

Freddie Falk of Eldorado yesterday was sentenced to three months on the state farm at Vandalia upon arraignment in Gallatin county court at Shawneetown.

Falk pleaded guilty to driving an automobile with his driver's license revoked and was sentenced to the penal farm by County Judge Fred Harmon.

The youth, whose license had been revoked at Springfield because of reckless driving in Saline county, pleaded guilty to reckless driving at Shawneetown a few days ago and then the complaint charging him with driving without a license was filed in county court.

Mrs. Ethel Weaver, Former Resident, Dies At Her Home in Urbana

Mrs. Ethel Weaver, past 60, a former resident of Harrisburg, died this morning at her home, 403 Vermont street, in Urbana.

She was the mother of Mrs. Casey Dempsey, Carlyle, formerly of Harrisburg. Mrs. Warren Felts, whose husband is a high school band director, and Warren, Stanley, James and John Weaver.

These children were all born and reared in Harrisburg and attended the Harrisburg Township high school.

The father, Lana Weaver, died a few years ago and was buried in Brushy cemetery.

Mrs. Weaver's funeral will be held at Urbana probably Monday.

PETER EDSON'S Washington News Notebook

Federal Daisy Chain — Case of the Casings — Cost of Dependents — Radioactive Rain

WASHINGTON—(NEA)—Here's a government daisy chain to follow. It concerns the old "section 609" Federal Housing Administration scandals now being investigated by Congress, the FBI and nearly everybody else.

There was nothing illegal about any of the profits reaped by multi-unit housing developers under this law. They merely built their projects for less money than the amount they borrowed to finance the operation on a government guaranteed mortgage. They pocketed the difference as a windfall profit.

The government has no chance of getting any of this money back. But the government can collect income taxes on these profits.

If the government collects only capital gains taxes on these profits, it will get only 26 per cent of the windfall. If the government can collect straight corporation income taxes on the profits, it might get 52 per cent or more of the windfall.

If the builders had not made these profits — now estimated at

\$65 million on 1149 projects — the government would not have been able to collect any taxes on them at all.

THE U. S. DAIRY products price-support program completed a cycle of silliness the other day. That was when Department of Agriculture announced still another program to offset the bad effects of all the other programs now in effect.

As everyone knows, the government now supports dairy prices by purchasing surplus cheese, butter or butterfat and dry milk solids. These are the only forms in which perishable milk and cream can be safely stored for considerable periods of time without spoilage.

Having broken down the whole milk into these surplus by-products, with which nobody has known what to do, the government now proposes to facilitate exporting some of them for putting back together in the form of substitute whole milk.

DEFENSE SECRETARY Charles E. Wilson has given Congress some new facts on the Korean ammunition shortage, which was a major scandal in 1952.

One investigation disclosed that a certain type of shell which was critically short in Korea had been stockpiled in the U. S. to the extent of three million rounds. It was an error in accounting.

When copper got short in the U. S., it was decided to make 105-mm. shell casings out of steel. This had an added advantage because steel casing could be reloaded and reused five times.

This salvage plan would have worked out fine, Secretary Wilson reported, except that the officer in charge of the port in Korea wasn't told of it. On his own responsibility he decided that the 105-mm. steel casings should not be returned to the U. S., and he ordered them smashed up.

TESTIMONY BEFORE the House Appropriations Committee reveals that the 300,000 American troops now in Europe have 200,000 dependents — wives and children — living with them. In addition to the high cost of housing all these people, educating the children and providing medical care, there is the larger problem of their security in case of war.

It is estimated that it would be just as costly to evacuate these civilian dependents as it would be

to send five divisions to Europe.

A MONITORED radio broadcast from Tokyo recently reported that rain falling in Niigata after the H-bomb tests emitted radioactivity at the rate of 141 Geiger counts a minute.

The announcer said a spectro-analysis of the rain would be made to see if it contained uranium. If it did, it would indicate that the bomb blast failed to undergo complete fission.

In another broadcast, it was reported that plants became discolored and withered during a rain-fall. The broadcast closed with the encouraging note that people should not worry about absorbing radioactivity to the extent recorded from the rainfall. But they were advised to "keep from getting wet."

"Best Seller" for 3 good reasons

CAN YOU SEE • STEER • STOP SAFELY?
CHECK YOUR CAR — CHECK ACCIDENTS

Buick now outsells all other cars in its price class and above

You've probably noticed it right in your own neighborhood.

Bright new Buicks appearing here, there, everywhere. And more and more of them in recent weeks.

Know what's happening?

Folks in growing numbers — (and maybe you'll be joining them soon!) — are finding Buick styling, performance and value far too wonderful to pass up.

So Buick is selling at a record pace — outselling all other cars in its price class and above.

Matter of fact, latest figures for the first quarter of 1954 show that, in total national volume, Buick is outselling every other car in America except two of the so-called "low-price three."

A look and a ride and a peek at the price tag will be all you'll need to know what's back of this best-selling success.

There's styling in Buick that's the greatest beauty advance in years — the very look of tomorrow — and with the spectacular panoramic windshield that's part and parcel of this dream-car look.

There's performance in Buick as never before — with record-high V8 power, with the sensationally smooth

whip of Twin-Turbine Dynaflo,* with the buoyant ride of all-coil-springing, with a new precision of control and handling.

And there's value in Buick that's hard to match — with prices starting near the "low-price three" — prices that buy more Buick beauty and power and thrill and sheer automobile than smart money ever bought before.

How about you?

Are you ready, willing and waiting to be shown that this best seller called Buick is the buy of the year for you, too? Drop in this week, or give us a call, and we'll arrange a demonstration.

*Standard on ROADMASTER, optional at extra cost on other Series.

Marshall Islands Ask Congress to Halt H-Bomb Tests

UNITED NATIONS, N. Y. (AP) — The Marshall Islands congress has petitioned the United Nations to stop hydrogen bomb tests in the Pacific charging that the experiments have had "lethal effects" on the inhabitants, it was announced today.

A complaint from the "Hold-over Committee of the Marshall Islands Congress" and 100 citizens of the Pacific Islands group said that the inhabitants are "suffering in various degrees from lowering of blood count, burns, nausea, and loss of hair."

Their complete recovery, the petition to the U. N. Trusteeship Council said, "no one can promise with certainty."

The Marshall Islands, which include Bikini and Eniwetok where the United States has conducted its hydrogen explosions, are a U. N. trust territory administered by the United States.

Thomas Jefferson was the first president to be inaugurated in Washington.

RAIDER SHAKES HANDS with Eugene Hughes at Hughes' pony farm. Raider, the Shetland stallion, is the star performer on the farm. He will also count his age and "roll over and play dead" at Hughes' command.

Raising Little Ponies is Big Business For Eugene Hughes of Near Liberty

By Alta Porter
Raising small ponies for little children is growing into a big business for Eugene Hughes, who has three farms on Rt. 2, Harrisburg, in the vicinity of Liberty.

"Raider" is the name of his stallion and he has eight brood mares, three colts and will soon have five more colts.

"Raider" is the star performer among the Shetland ponies at the Hughes farm. He will shake hands, count his age, and "roll over and play dead" at the command of Mr. Hughes.

Penned up in the barn all winter, Raider has recently been turned out to pasture and would like to forget the tricks that Mr. Hughes has taught him. Ranging with a half dozen pretty little fillies, he finds the pasture much more alluring than an ear of corn or a lump of sugar, as a reward for doing his stunts.

He is a namesake of the pony owned by the Cisco Kid and is a right worthy equine god-child of the famous movie pony.

Mr. Hughes explained that all of the brown spotted ponies are of western mustang line. Newer breeds include the Silver Crest and Silver Dapple. The true Shetland is the shaggy little brown beast that comes from the Island of Shetland, he said.

The first pony he bought was 20 years ago for his son, William, now married and living at 315 South Main street.

and then Jimmy, now 21, had to have one. As they reached the motorbike age, Mr. Hughes bought their ponies from them and started breeding small ponies.

The smaller the pony the more it will bring Mr. Hughes said. While the ponies are raised and sold mostly as presents for children too young for motor vehicles, they are also in demand for carnival and park "pony rides."

Although Mr. Hughes' pony herd is comparatively small, it is widely known, for he receives bids for ponies from many far away places. A carnival owner wintering in Mississippi called him on long distance recently and wanted to buy all he had.

Some of these midget horses are also used as beasts of burden in the shallower coal mines of the country, where the haulage is not far enough from the pit or surface to warrant motor equipment or the "top" is too low for tall horses.

Although the ponies appear very docile, they can and do take care of themselves at an early age.

Mr. Hughes was laid up for three days last year, when he attempted to carry a colt only an hour old to the barn from the fence corner, in which he was foaled. Its infantile vigor caused it to be named "Pepi" by Linda, 12-year-old daughter of the Hughes, who is a sixth grader at Liberty school.

Calendar of Meetings

Pride of Midway, No. 679, will hold its regular meeting Monday at 8 p. m. Members are urged to attend. Anna Lou Sowers.

I. O. O. F. lodge 874, Carrier Mills, will have a school of instruction Monday at 7:30 p. m. with Assistant Grand Instructor Ed Keneipp of Harrisburg in charge. Refreshments.

Installation of the officers of the Woman's Society of Christian Service, Wesleyan Service Guild and Mother Thompson Guild of the First Methodist church, will be held Sunday, May 16, at the morning church hour. All officers are requested to be present.

The young people of Bethel A. M. E. church will have a winter roast and sell homemade sherbet Saturday at 6:30 p. m., at the home of Claude Woods, 312 North Gum street. The public is invited.

Marriage Licenses

Pink Hancock, 66, Harrisburg, and Jennie Beam, 60, Valparaiso, Ind.

Wallace Kadish, 21, and Elaine Becker, 18, both of Gary, Ind.

Homecoming Saturday Of Stonefort Seventh Day Baptist Church

Saturday, May 15, the Seventh Day Baptist church at Stonefort will hold its annual all day meeting, homecoming, basket dinner, and communion service.

This pioneer church, established in 1871, has held this service known as the "Third Sabbath in May" meeting over a period of many years, almost since its beginning.

Rev. Addison Appel, now pastor of the church at Farina, Ill., will preach at the morning service, and a number of members of that congregation will be in attendance. Members of the local church who live at a distance always try to attend this annual affair.

Social and Personal Items

Wiener Roast Held By Mr. and Mrs. Club

The Mr. and Mrs. Club met at the home of Mr. and Mrs. Royal Alvey on May 11. The group enjoyed a wiener roast after which a business meeting was held. Billy Kaid gave a talk on what he had learned about tractors during his winter employment.

Visitors were Mr. and Mrs. Gene Kaid who gave some interesting points on the island of Guam. They told about the natives' home, and types of work which the natives do. They also told of the type of home they lived in and of keeping practically everything in a hot locker to keep dampness out. They also explained about typhoon shelter, and preparing to go to the shelter. For entertainment on the island they had outdoor movies and beaches. Mr. Kaid was with the Navy, stationed there for about two years. The Air Force also has a base located on the island.

Those present were as follows: Mr. and Mrs. Priestly Hilliard and sons, Mr. and Mrs. Jack Wise and sons, Mr. and Mrs. Billy Kaid and children, Mr. and Mrs. Lesley Pearce and daughter, Mr. and Mrs. Ralph Billman and children, Mr. and Mrs. David Dees, Mr. and Mrs. Gene Kaid, and Mr. and Mrs. Royal Alvey and son.

Mrs. Earl Robb, Hostess To McKinley Philathea Class

Mrs. Edna Robb, 629 West Robinson, was hostess to the Philathea Sunday school class of the McKinley Avenue Baptist church Thursday evening.

The meeting opened with the class song, "Amazing Grace," and with prayer by Mrs. Ruth Wheeler. The devotion, taken from the first and fourth chapters of John, was given by Mrs. Eathel Stout.

Following the devotion Mrs. Ada Rann and Mrs. Ralph Burroughs sang a duet, and each member participated in a testimonial service.

The group was dismissed with prayer by the teacher, Mrs. Della McDonald. Thirteen members and two visitors were present.

During the recreation prizes were won by Mrs. Rann and Mrs. Eva Rodgers.

The next meeting will be with Mrs. Mary Agin. The hostess, assisted by Mrs. Paul Hilliard, served lemon and pineapple fluff and coffee and Cokes.

Presbyterian Choir Has Shower for Mrs. James Hill

The Presbyterian choir gave a surprise shower last night for Mrs. James Hill, formerly Imogene Allen, who was married April 11 at Corinth, Miss.

The choir members and a guest, Mrs. M. D. Nesler, were present to wish the bride happiness.

McKinley Baptist W. M. U. Has Royal Service Program

The Woman's Missionary society of the McKinley Baptist church met Wednesday afternoon at the church for the regular business and royal service missionary program.

The president, Mrs. Webb Yarbrough, presided over the business session with 13 members answering roll call. Announcement was made of a bus leaving from the First Baptist church for the Southern Baptist convention meeting in St. Louis, Mo., May 30 to June 5.

The missionary program was directed by Mrs. Ben Gardner, the theme being "Educating for Truth in South America." Opening prayer was given by Mrs. O. Reynolds, and the devotion by Mrs. Gardner, with others reading scriptures responsively from gospel writers on "Our Task in Sending the Truth."

Mrs. Henry Hendren spoke on "Our Newest Seminary in South America," Mrs. Hugh Rann, "Educating for Truth in North Brazil," Mrs. George Rumsey, "Baptist Educational Work in Rio," Mrs. Kirt Gasaway, "The Kate White Domestic School," Mrs. John Irvin, "Spreading the Truth in the Interior of Brazil," and Mrs. Yarbrough talked on "Lights that Shine in Dark Places."

In conclusion Mrs. Gardner quoted "If ye continue in my word you are truly my disciples, and you will know the truth, and the truth will make you free." Mrs. Houston Smith closed with prayer.

McKinley T. E. L. Class Meets Thursday Evening

Mrs. Noah Raley presided at the meeting held Thursday evening by the T. E. L. Sunday school class of the McKinley Avenue Baptist church.

Members met at the home of Mrs. R. O. Clecher at Morris Heights, and Mrs. Versa Hetterschmidt and Mrs. Frank Bond assisted her as hostess.

Prayers were led by Mrs. James Raley and Mrs. William Jennings, and the devotion was given by Mrs. Cecil Wathen.

During a social hour, entertainment was in charge of Mrs. Merriem Thomas, and refreshments were served by the hostess to the above-mentioned and the following:

Mrs. Mesdames George Harbison, John Upchurch, Murtha Asbridge, Rufus Wells, Ben Gardner, Otis Reynolds Sr., Lee Jones, Mollie Irvin, B. H. Smith, Emery Randolph, Leonard Jackson, Alta Noonan, Fred Fulkerson, Lloyd Davis, Jesse Cannon, Levi Chitty, who is class teacher, and Miss Elsa Tyndall.

CIA Warns Employees Against Disclosing Classified Information

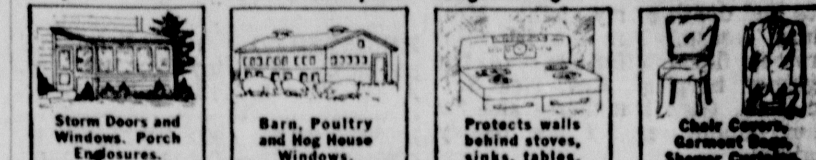

WASHINGTON (AP) — The Central Intelligence Agency has warned its employees they will be fired immediately if they disclose classified information to unauthorized persons.

The super-secret agency also has warned that dismissal faces any employee who engages actively in politics.

Dirksen, Mundt Testify
Adams Sought Help

(Continued from Page One)

cussed the case in January should state publicly "now or at the earliest opportunity" whether the denial was true. The three are Dirksen and Sens. Karl Mundt (R-S.D.) and Charles E. Potter (R-Mich.).

Dirksen Takes Stand

Dirksen then asked to be put on the stand. He said Adams and Gerald Morgan, a presidential assistant, came to his office Jan. 22. He said Adams came "for the purpose of eliciting my interest and influence" in trying to "at least suspend" the Loyalty Board subpoenas and "perhaps to kill them."

Dirksen said he suffered much "distress of spirit" over what Adams told him about the subpoenas and about efforts of Cohn to get special treatment for Pvt. G. David Schine.

He said he met with McCarthy the next day after asking subcommittee executive director Francis P. Carr to at least hold up the subpoenas until the subcommittee could discuss the question.

At the meeting Jan. 23 in McCarthy's office, Dirksen said he told McCarthy if Adams' statements were true, Cohn "should be fired forthwith" and that perhaps the Pentagon should be asked to fire Adams.

Adams had said he felt the alleged pressure to get a special assignment or other favors for Schine, a former McCarthy subcommittee aide, and the subcommittee threat to subpoena the Loyalty Board members were very closely related.

McClellan Questions Counselor

Adams was questioned closely by Sen. John L. McClellan (D-Ark.) on the Army's refusal to give Schine a New York assignment. He had testified that McCarthy, subcommittee counsel Roy M. Cohn, and subcommittee staff director Francis P. Carr were all active in Schine's behalf.

He told McClellan that the Army has a responsibility to abide by the draft act and to give inductees their appropriate assignments regardless of influence or favors.

"When the day comes when the people begin to distrust the selective service system," Adams said, "Congress will take it off the books."

If that were done, he said, the strength of the Army, Navy, and the Air Force would be "depleted by 50 per cent."

When Adams remarked that the men killed in Korea did not have "money or influence" to obtain a New York assignment, McClellan said he didn't understand how money entered into it.

Adams said he probably should not have injected that. But he said Schine did have "influence" and also was a "wealthy young man."

The first pheasants in America arrived from China in 1881 and were released in Oregon's Williamette valley.

For every person who can't do as he's told, there's another who can't do anything else.

To Dedicate New \$4.5 Million Memorial Hospital at Effingham Sunday

EFFINGHAM, Ill. (UP)—Celebration of Effingham's centennial began today with a three-day program to be climaxed Sunday with the dedication of the new \$4.5-million dollar St. Anthony's Memorial Hospital.

Grimly filed in the history of the hospital founded here in 1876 is the tragic fire which took the lives of 77 persons April 5, 1949. Relatives of those who died in the fire have been invited as guests of honor to the dedication on the hospital grounds.

The first St. Anthony's Hospital was a small, two-story brick building built for about \$7,000 in 1876-77 for the nuns of the Third Order of St. Francis. "Conveniences" of the first hospital included speaking tubes and whistles for communication and dumb waiters, clumsy forerunners of the electronic communication system and elevators in the new hospital.

Additions were built onto the old hospital in 1891, 1906, 1917 and 1924 as the need for more patient space arose.

Nurse Stayed With Babies
On the night of the fire there were 13 babies in the maternity ward and one of the victims was Fern Riley, 23-year-old maternity ward nurse. She chose to stay with "my babies" and when her body was found she clasped a baby in her arms.

Two nuns and a priest were among the other fire victims. Contributions for a new hospital began coming in within hours after the flames died out. Residents of all the 48 states and 11 foreign countries contributed \$540,642.00. State and federal grants amounted to about \$1,100,000. The hospital users underwrote the rest of the cost.

After delays in getting building materials because of the Korean War, the construction began in 1951 and the cornerstone of the new hospital was laid Aug. 21, 1952. The hospital was occupied Feb. 2 this year.

Stratton to Plant Tree
The main section rises six stories above the open grounds and spread from it will be three wings housing an auditorium, a chapel and service facilities. There are beds for 126 patients in normal times and for an emergency 156 patients could be taken in.

The dedication will start at 10-30 a. m. Sunday with a field Mass celebrated by Bishop William A. O'Connor of the Springfield Roman Catholic diocese. Bishop Albert R. Zuroweste of the Belleville diocese will preach the sermon.

Music by the University of Illinois concert band will open the afternoon program at which Gov. William G. Stratton will be the main speaker. Stratton will plant a tree on the hospital grounds using soil collected from all of the 48 states in tribute to the contributions received for the hospital fund.

Music by the University of Illinois concert band will open the afternoon program at which Gov. William G. Stratton will be the main speaker. Stratton will plant a tree on the hospital grounds using soil collected from all of the 48 states in tribute to the contributions received for the hospital fund.

He did not specify but apparently he referred to pending federal legislation to allow the use of evidence gathered by FBI wire taps in prosecuting certain espionage or treason cases.

"It's completely unjustified in America," Stratton declared. "They say you have to have it to catch a spy, but that's not any excuse to take away freedom."

Stratton, addressing editors meeting for a clinic on means of improving the securing of information from public officials, also came out against "censorship of any kind."

Election Checks Not Ready Until After June 7

Judges and clerks who worked in the April 13 primary will not receive their compensation until after June 7, date the county board meets, it was announced today.

Weighted by Bricks

The name of brick cheese is supposed to have come from the practice of using bricks to weigh down the curd in the molds, according to the Encyclopedia Britannica.

Hard of Hearing Now Hear Clock Tick

A new device has been developed to give hope for the hard of hearing. Through the adoption of a new transistor tube, science now brings restored hearing to the deafened.

No more cumbersome batteries or battery cords needed. This new device weighs only a few ounces yet so powerful the hard of hearing may now hear whistles.

It is suggested, if interested for yourself or a friend, write Tonemaster Hearing Aid Co., Department A, 813 W. Indiana St., Evansville, Indiana; for full free information.

Col. MacMillan Named Commander Of SIU ROTC Unit

CARBONDALE, Ill.—Col. Alexander R. MacMillan, former inspector general for the Air Training Command at Scott Air Force Base, Belleville, has been named to head the Air Force ROTC detachment at Southern Illinois university.

Col. MacMillan, now on duty in England, will not assume his new duties, however, until after July 16 when he will complete a training period at the Academic Instructors' School at Montgomery, Ala.

He will replace Lt. Col. O. K. Halderson, the first commandant of Southern's three-year-old ROTC unit. Halderson has not been reassigned, as yet.

Col. MacMillan is a West Point graduate with a long service career. He was stationed on Corregidor in the Philippines in 1921-23 and has been in England with the Third Air Force since 1951. His commendations include the Legion of Merit.

MacMillan's son is an air cadet at Bartow Air Force Base, Fla., and his married daughter lives in Wollaston, Mass. The colonel's home is in Detroit.

Woman Teacher, Descendant of Capt. Miles Standish, is Suspended as Former Red

WAYLAND, Mass. (AP)—A woman descendant of Capt. Miles Standish was under suspension as an elementary school teacher today pending further investigation of her admitted past Communist affiliations.

Miss Anne P. Hale Jr., 46, who said she also was a descendant of Nathan Hale, was suspended Thursday night at a special meeting of the Wayland School Board. It was reported she admitted to the board she had been an active Communist Party member from 1945 to 1950 when she stopped paying dues and attending meetings.

The board said Miss Hale would be given a hearing to show cause why she should not be fired.

Anticipating her suspension, Miss Hale wrote parents of her 28 pupils a letter which she asked be read to the third graders.

"Your family will tell you that different people have different ideas about how the country should be run," the letter read.

"I have been working for a long time in the best way I know to make sure that the liberty and justice for all, of which we speak every morning, is always with us, and that it will grow better."

"Those who don't agree with me may say harsh things. Just remember these things, which I am sure you know, I love my country and I love you."

In a statement, Miss Hale said she was a descendant of Miles Standish, Elder Brewster, John and Priscilla Alden, all members of the Plymouth Bay colony of 1620. She said she also was a descendant of Nathan Hale, American officer hanged by the British during the Revolutionary War.

Eisenhower to Receive New Draft Proposal

WASHINGTON (AP)—A plan for a drastic overhaul of the military reserves, including a modified universal military training program, was scheduled to be presented to President Eisenhower today.

Defense Mobilizer Arthur S. Flemming planned to outline the sweeping new program to the President at the White House this afternoon.

If the plan wins presidential and congressional approval, it will mean additional compulsory military service for the nation's youth.

Draftees on finishing their two-year active service will be required to serve, probably two weeks each year, with a National Guard or active Army Reserve unit.

Following the UMT concept, a certain number of youths will be picked by Selective Service to receive only four months of basic military training and then be required to serve seven years and eight months in organized reserve units.

If they fail to participate in the reserve they will be drafted into the Army to serve out their active duty terms.

The plan, with its compulsory service feature, is designed to strengthen the military reserves, which are vitally important to defense plans now that the administration is reducing the standing Army.

President Eisenhower is believed to approve most of the new plan's proposals but it would face a stiff battle in Congress.

Business Decline Slows Down, Gov't Reports

WASHINGTON (AP)—Business across the nation dipped 1.2 per cent during the first three months this year but some recent reports indicate the decline is slowing down.

On the favorable side, the Commerce Department cited continued high spending, a drop in inventories, record construction, and the first downturn in unemployment since last October.

The gross national product—total output of goods and services—eased off to an annual rate of \$357,800,000,000 during the first quarter. That was \$5,700,000,000 below the final quarter of 1953.

It also was \$9,400,000,000 under the record annual rate of \$367,200,000,000 registered in the boom year of 1953. The quarterly record peak came in the second quarter of last year—\$371,400,000,000.

But, even with the decline, the first quarter figures this year were \$9,800,000,000 above the 348 billion dollar annual rate for 1952, which was prosperous by any previous standard.

And some economic reports since the end of the first quarter have indicated that the business decline has at least slowed down, if not halted.

Unemployment declined last month for the first time since October.

Personal income declined by about three billion dollars on an annual rate basis to 283 billion dollars.

Gar Wood, Eight Others Saved As Boat Sinks

MIAMI, Fla. (AP)—Gar Wood, his revolutionary twin-hulled "ship of the future" destroyed, said today that if he builds another it will be of metal instead of wood.

The 73-year-old Wood, dean of motor boat racers, was not disturbed by the smash-up Thursday of his experimental vessel, the Venturi, in heavy seas which left him and eight others adrift in a life boat.

Two 10-foot waves tore the starboard bow off the Venturi, he said. This came as "a great surprise," he said, but he defended the ship's design, saying it could not be blamed for the break-up.

Wood, who took just about every major racing title there was between 1920 and 1933 with his renowned Miss Americas—pointed out that the Venturi was 10 years old and made of one-inch-thick plywood.

"We just found out this wooden boat wouldn't take it," Wood said. A Coast Guard helicopter plucked Wood and two women crewmembers from the stormy Atlantic and brought them here after a stop at the Great Isaacs lighthouse.

The vessel was about 63 miles off the lower Florida east coast in the Gulf stream when caught in a heavy squall.

The remaining crewmembers were brought here by rescue surface craft. None was injured.

Exhausted Parakeet Knows Name, Address

LONDON (AP)—An exhausted parakeet picked up by a farmer in a suburban field Thursday gasped, "I'm Bobby Ritson and I live at Whickham Bank."

He was right.

New Year's Day is a legal holiday in all states except Kansas and Massachusetts.

Announce New Way To Shrink Painful Piles

Find Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

NEW YORK, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to stop bleeding without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!"

And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (BioDyne)—the discovery of a world-famous research institution. Already, BioDyne is in wide use for healing injured tissue on all parts of the body.

Now this new healing substance is offered in ointment form for hemorrhoids under the name Preparation H. The price is only \$1.00 a tube including an applicator. The name to ask for is Preparation H—At

Costello is Convicted of Tax Evasion

NEW YORK (AP)—Gambling czar Frank Costello was convicted Thursday night on three counts of federal income tax evasion. He faces a maximum sentence of 15 years in prison plus a \$30,000 fine.

The jury of seven men and five women deliberated eight hours and 10 minutes before finding the dapper gambler guilty of evading \$39,014 in taxes in 1947, 1948 and 1949. He was found innocent on one count in the four-count indictment. It involved his 1946 return on which the government had charged \$13,244 was due.

Costello, 63, will be sentenced Monday at 11 a. m. EDT by Judge John F. X. McGohery.

McGohey continued the defendant in \$5,000 bail until 11 a. m. EDT today when it will be raised to \$25,000.

Defense Counsel Leo C. Fennelly said he would appeal the verdict.

During the six week trial the government offered evidence that the total evasion for the four year period was \$52,239. Costello did not take the witness stand in his own defense.

Costello, believed to be the king of a nationwide underworld gambling syndicate, emerged from federal prison only last Oct. 29 after serving 14 months and 15 days on the contempt of Congress conviction.

His only other jail sentence in a 39-year career of flirting with the law was in 1915 when he served 19 months in prison for illegally carrying a pistol.

Costello also faces denaturalization proceedings as the first step in the government's efforts to have the gambler deported to his native Italy. In addition, a civil suit for back taxes is hanging over him.

The U. S. post office department issued 4,222,198,300 copies of the two-cent Washington bicentennial stamp in 1932, the most ever issued of a commemorative stamp.

Granted 60-Day Stay of Execution

SAN QUENTIN, Calif. (AP)—Convict-author Caryl Chessman had a 60-day leave on life today, thanks to a last-minute legal technicality.

Marin County Superior Court Judge Thomas Keating ordered a stay of execution Thursday after Attorney Berwyn A. Rice claimed the transcript of Chessman's trial was faulty.

Chessman, 32, author of a well-reviewed autobiography written in his death row cell, had been sentenced to die at 10 a. m. today. He beamed when his attorney told him he had won the stay.

In the last 30 years, production of tons of coal per man per hour has practically doubled.

PRESSURE-CREOSOTED fence posts

● You've heard about pressure-creosoted posts from your neighbors... you've read about them in leading farm magazines. Pressure-creosoted posts mean fewer posts to buy over the years... less labor in setting and resetting... longer life from the fencing itself.

Why are pressure-creosoted posts your best buy? Because they are the engineered products of modern wood treating plants. Just the right amount of Creosote is forced deep into the wood to give it the longest possible life. There's no guesswork involved.

Over the years, you'll find pressure-creosoted posts cost you far less than any other wood post you can use. Come in and get prices and other information today.

THE SCOREBOARD

Giel Writes Own Ticket in Baseball

By HARRY GRAYSON
NEA Sports Editor

NEW YORK — (NEA) — Paul Giel worked his way through Minnesota playing football to make a living in baseball. Giel was offered a \$50,000 bonus by a major league baseball club while pitching for Winona, Minn., High.

Scouts have since trailed the Gophers' All-America one-man backfield field agent Federal Bureau of Investigation agents.

Every foxy forager who has seen him believes he'll win in the big show. Most of them and his coach, Dick Siebert, the one-time Athletics' first baseman, contend that he'd help most staffs right now.

Giel will write his own ticket upon his graduation in early June and is expected to step right into a major league uniform.

Giel, 21-year-old son of a railroad engineer, is a high principled youngster. He wanted a college education and got it on a football scholarship. That was one reason he completed his eligibility in the rougher game.

The baseball bid was upped after his junior year. Tailback Giel knew he would be a marked man last fall, but said he owed it to his teammates to go through the season. Besides, he liked to play football. The result was just about as spectacular a season as a football player could have.

"You get a few more butterflies in your stomach in football than in baseball, but I like them both,"

explains the Minneapolis Cover Boy.

SOME CLUBS SUSPECTED a baseball impairment after all that Giel went through in football last autumn.

"I'll take nobody's money until they are convinced that I can pitch," the honorable Giel told their representatives. By way of further convincing them, Giel struck out 14 lowans yielding no more than four hits before over-clocked Gopher fans.

Ivory judges like everything about Giel including his conformation. He stands five feet 11, weighs 185 solid pounds and is not too long armed. Bob Feller and Burleigh Grimes, to single out two, were built that way. Those kind never have arm trouble. It is the long-armed guys who snap their arms like a whip that wind up sore and disabled.

It goes without saying that Giel is a fiery, poised competitor. He is fast, has a good curve, a change of pace and control and Siebert declares him to be a major league fielder now.

GIEL SET AN earned-run average as a sophomore, was named an All-America last year by the college coaches.

"Cleveland has a policy not to sign bonus players," says Hank Greenberg, "but is interested in Giel as a bonus player. I don't think the boy can miss."

"I've seen Giel for five years,"

testifies Fred Schulte of the White Sox, "and he's always impressed me. He is pitching smarter."

"Where can you find a better major league pitching prospect than Giel?" asks Giants' Angelo Guiliani.

"We've always liked him," chirps the Dodgers' Clay Bryant. "He has everything," says the Tigers' Phil Galloway.

"I know of only one other college pitcher who is as good a prospect," asserts the Braves' Eddie Daisak. "Giel is a brighter prospect than was Murray Wall (now with Toledo) when we signed him after he had finished pitching for Texas."

The line forms on the left, and get it up, men.

Preliminaries Begin in State Track Finals

SPRINGFIELD (AP)—Northern Illinois was favored today to win its 29th straight title as the 1954 state track and field championships opened in Memorial Stadium.

For two days, athletes from all sections of Illinois will compete for individual honors and for the coveted team title, to be awarded at the close of competition late Saturday.

Preliminaries in all events were on today's program. The broad jump and discus throw finals also were on tap today, with all other finals to be run off Saturday.

Defending champion is La Grange, which won the laurels in 1952 and 1953 and sought to become the third team in history to take three consecutive crowns.

The Lions were rated as no easy pushover but neither did they rank as a heavy favorite. The team lost some members of the 1953 squad to graduation, and others were handicapped by injuries.

Wendell Phillips, the Chicago team which was 1950 and 1951 titlist, fielded one of the strongest threats to La Grange's bid for three championships in a row.

Other teams which shaped up as possible contenders included New Trier of Winnetka, Waukegan, and Lincoln of East St. Louis.

Five athletes who pocketed individual titles in the 1953 track and field meet were among the performers this year.

They included Dick Winterbauer, Arlington Heights, shotput; Floyd Smith, South Vernon, high jump; Harold Caffey, La Grange, 440-yard run; Ed DeLong, Waukegan, 880-yard run, and Bob Pitchers, Virden, one-mile run.

Red China Admitted To Olympics

ATHENS (AP)—The International Olympic Committee today admitted Communist China to the organization and Nationalist China promptly announced it would withdraw.

Gunsun Hoh, member of the Nationalist China National Olympic Committee, said his country was withdrawing from the Olympic organization in view of the IOC decision to admit China.

The motion to admit the Reds was carried by a vote of 23 to 21. A similar motion to recognize an application from East Germany was defeated 31 to 14.

Ethiopia also was admitted along with the Dominican Republic, Malaya and Costa Rica.

Cardinals Lose 12 Straight Games At Ebbets Field

BROOKLYN (AP)—Going into tonight's game against the Dodgers, the St. Louis Cards have lost 12 straight games at Ebbets Field.

After losing all 11 games they played in the Brooklyn ballyard last season, the Cards lost in their Ebbets debut for this season Thursday, 10-3. Their last victory in Brooklyn was on Sept. 13, 1952, when pitcher Stu Miller defeated the Dodgers, 5-2.

Chet Nichols Wins Second Straight for Braves; Roberts Hurls One-Hitter

By FRED DOWN

Curveballer Chet Nichols' second straight victory left critics of the Milwaukee Braves' big winter deal with the New York Giants at a loss for words today.

Nichols, flashing the form that made him the National League's earned run leader in 1951, pitched an eight-hitter Thursday night to pace the Braves to a 4-2 victory over the Pittsburgh Pirates. It was the Braves' seventh triumph in nine games during which opponents have scored a total of nine runs.

The 23-year-old left-hander's return to form came just as the Braves were defending themselves for including lefty Johnny Antonelli in the deal which brought them outfielder Bobby Thomson from the Giants. Nichols lost his first three decisions for the Braves while Antonelli has reeled off four victories in five games for the Giants.

Catcher Charley White broke a 1-1 tie with a two-run double in the fourth inning when the Braves assumed a 4-1 lead. Nichols, who walked only three batters, pitched his way out of trouble in the seventh when he struck out Bob Skinner with the tying runs on base.

Robin Roberts pitched his second one-hitter in 19 days as the Philadelphia Phillies downed the Cincinnati Reds, 8-1, in the other National League game Thursday night while the Brooklyn Dodgers crushed the St. Louis Cardinals, 10-3 and the Giants beat the Chicago Cubs, 6-3, in the afternoon contests.

The New York Yankees defeated the first-place Detroit Tigers, 5-3, in 10 innings on Yogi Berra's two-run homer and the Boston Red Sox routed the Baltimore Orioles, 9-1, in the American League night games. The Cleveland Indians rallied for six runs in the ninth inning and won, 8-7, over the Washington Senators in the 11th and

the Philadelphia A's beat the Chicago White Sox, 3-2, in afternoon games.

Roberts yielded a leadoff homer to Bobby Adams and then retired the next 27 batters in order for his fourth win of the year. Roberts, who missed the first perfect game in the majors since Charley Robertson's classic in 1922, also pitched a one-hitter against the Braves on April 29.

Johnny Podres scored his fourth straight victory for the Dodgers although touched for 10 hits by a Cardinal team which has lost 12 straight games at Brooklyn's Ebbets Field. Jackie Robinson had three hits, including a double and triple, Brooklyn's biggest offensive of the season.

Monte Irvin hit two homers and Willie Mays, Hank Thompson and Ebbie St. Claire one each to lead the Giants to their fifth straight win. Larry Jansen received credit for his second victory although Marv Grissom pitched the last three innings.

Berra's sixth homer, giving him the AL lead, made it three in a row for the Yankees and gave Tom Morgan his third straight win. Morgan was hammered for 10 hits but shut out the Tigers after they scored all their runs in the second inning. Irv Noren's two-run homer tied the score in the eighth.

Southpaw Bill Henry had easy sailing to his second win behind Boston's 11-hit barrage which ended the Orioles' three-game winning streak. Billy Goodman tripled and Harry Agganis doubled in a six-run third inning which clinched the victory for Boston.

Al Rosen's run-scoring double provided the Indians with their winning tally after Dave Philley's double capped a six-run ninth inning rally that drove Mickey McDermott to cover. McDermott had pitched a one-hitter until the ninth. Pete Suder's ninth-inning double clinaxed Philadelphia's two-run uprising that handed Chicago's Virgil Trucks his third loss.

Thursday's Star: Robin Roberts of the Phillies, who pitched a one-hitter against the Reds, retiring the last 27 batters in order.

Marion Wins Subdistrict; Plays Grayville Today

Marion, winner over Carrier Mills here yesterday in the Harrisburg subdistrict finals, was playing Grayville at Norris City today in a contest that started at 3 p. m.

Grayville beat Crossville in the Norris City prep district baseball finals and Marion defeated Carrier Mills, 12 to 4, on the town park diamond.

Winner of the game this afternoon will enter sectional play.

Marion put together two big innings to beat Carrier Mills, scoring six in the third and six in the fourth. In the other innings they were blanked.

Carrier Mills took an early lead, going ahead 1-0 when Shadowens, first man up, poked a home run to left field. The lead advanced to 2-0 in the second. In the third Marion scored six but the contest got close ahead when Carrier Mills put two runs across in the top of the fourth.

Prospects of a close game disappeared, however, in the last of the fourth when four runs crossed the plate.

Tom Strang hurled all the way for Marion, allowing four hits, with Anderson behind the plate.

Cowger started for Carrier Mills, then went to second base and Evans took the mound in the third during the big rally. Cowger returned to the mound but Evans came back to hurl in the fourth. Jerry Sweet took over in the fifth and went the rest of the way. Redwine was behind the plate for Carrier Mills.

First Kiwanis Baseball School to Be for Pitchers

The Kiwanis-sponsored baseball school, which gets underway Saturday morning at 9 o'clock, will be held on the town park diamond.

Pitching, which generally speaking has been one of the weakest points in Kiwanis baseball play the past two seasons, will be the subject of tomorrow's school, it has been announced.

All boys hoping to pitch in league play are urged to be present Saturday morning.

The morning will be divided into four periods with instruction for different age groups. The first period, 9 to 9:30, will be for the 9 to 12 year old group; boys 14 and under will be taught from 9:30 to 10; 10 to 10:45 will be spent with the 15 and under group and 10:45 to 11:30 is the time set aside for the older group, 20 years of age and under.

Pitching positions and pitching technique will be demonstrated by the instructors, then each boy will be given the opportunity to practice the positions.

Ted Williams Works Out as Pinch Hitter

BALTIMORE (AP)—Slugger Ted Williams of the Boston Red Sox took his first look at Baltimore's new baseball park Thursday night and promptly labelled it "a pitcher's park."

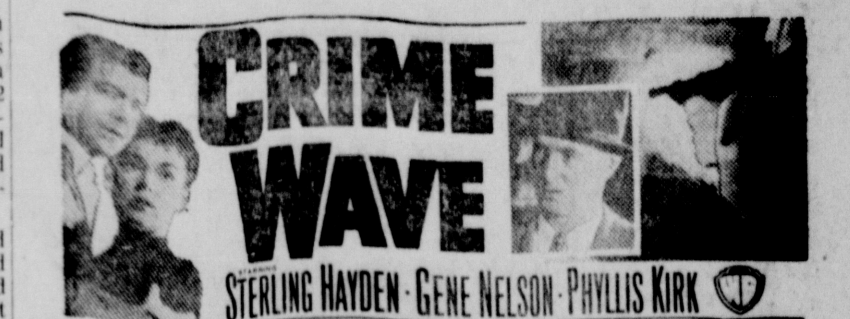

Then he hit five batting practice pitches into the right field bleachers.

Williams, working out with the Red Sox, said he "is close to con-dition" and it is possible he will be used as a pinch hitter during the three-game series with the Orioles.

85 Counties Set Up Rabies Control Under Law Requiring Dog Vaccinations

SPRINGFIELD — At least 85 Illinois counties have set up rabies control programs under a new state law requiring vaccination of dogs, it was reported today.

The Illinois Rabies Control Act, passed by the 1953 Legislature, requires annual anti-rabies shots for all canine pets not kept penned, leashed or muzzled, including pet foxes and wolves.

There are an estimated one-million dogs in Illinois. All which are more than 3 months old must be given rabies shots by June 1, and once a year thereafter.

To administer the act, each county board must appoint a rabies inspector and set up rabies control programs by June 1. Each board may name as many deputy inspectors as it wishes.

The board fixes a standard rate for rabies shots. This includes a fee to be paid to the county rabies fund, used to pay for shot tags, certificates, record-keeping, and the inspector and deputies.

Loopholes Turn Up
Dr. Arthur K. Merriman, state superintendent of livestock industry, said there has been a rush by counties in the past few weeks to cooperate with the program. Only 17 haven't reported enactment of rabies control measures yet.

Merriman said some "loopholes" have been turned up in the law which should be plugged by the 1955 Legislature. These chiefly concern lack of control over licensed veterinarians who might choose to disregard the law, he said.

Merriman said he has a "verbal opinion" from the attorney general that the state cannot force a privately-practicing veterinarian to collect the vaccination fees for the county.

"We can see nothing in the law which says a licensed veterinarian has to pay the fee on inoculations unless he is an inspector or deputy," Merriman said. "We are asking all veterinarians, however, to cooperate and take deputyships."

Merriman said his office also has received complaints from "border" county veterinarians, including Lawrence and Adams counties, that out-of-state veterinarians licensed to practice in Illinois are operating "cut-rate" inoculation services.

Refuse To Be Dog Catchers
Lower rates for shots given by "foreign" or "non-cooperating" veterinarians could wreck the county program, Merriman said.

Other questions raised by the law are who pays for the boarding of unclaimed dogs picked up without tags, and who does the dog catching.

The law requires enforcement by the county inspector and his deputies with help from law enforcement agencies. But in some counties, veterinarians who have taken the job of inspector have said flatly they won't be "dog catchers."

Girl, 2, is Found Suffocated in Accordion Case

DETROIT — An all-night search for a curly-haired little girl ended in her own living room when the child's body was discovered in an airtight accordion case.

The girl, 2-year-old Carole Sue Timte, apparently crawled into the empty case and was trapped when the lid snapped shut, police said. She suffocated.

Mrs. Betty Timte, 33, the mother of three other children, discovered her small daughter's lifeless body Thursday after a sleepless night of fears and anxiety.

More than 200 searchers had been dragging lakes and combing the countryside surrounding the family's home near suburban Farmington. Carole had disappeared Wednesday evening.

Mrs. Timte and her husband, Frank, a 35-year-old Detroit factory superintendent, were badly shaken by the ordeal and the tragic climax.

State Police Raid Four Night Clubs, Taverns at Colp

MARION, Ill. — State police said they would file information today against operators of four night clubs and taverns at Colp which were raided for gambling equipment Thursday night.

Capt. Walter Eichen and Lt. Elza Bramley led four officers in the raid about 10:30 p. m.

Bramley listed the following places, operators and the gambling equipment seized:

Owl Club — Herman West, licensee, dice and blackjack tables, dice, cards and chips; Glass Bar — E. D. Rando and J. Calcaterra, owners, dice and blackjack tables; Junior Hatchett's Cocktail Lounge, William Hatchett Jr., owner, one chuckaluck game; and the New City Club, Mary Calcaterra, proprietor, dice and blackjack tables.

The gambling equipment was brought to the Williamson county jail here.

Long Hair

EAST HAMPTON, Conn. — This town's four barbershops were abruptly closed for a few days. One of the barbers cut his hand, another broke his arm and the other two were sick abed.

was recaptured by the French when Sherman tanks came to the rescue with 90 mm guns blazing.

Army to Draft 23,000 in July

WASHINGTON — The Defense Department announced today that the Army will draft 23,000 men in July—a boost of 5,000 over the recent monthly calls.

The increase has no connection with the Indochina crisis, it was said.

The Army has been drafting 18,000 men a month since last February. The increase scheduled for July will bring the figure back to the monthly rate which prevailed for several months through last January.

Higher calls will be necessary beginning in July—start of fiscal 1955—because of the two-year up-and-down cycle fixed by two-year draft terms. Large numbers of men were drafted when the Korean war started in June, 1950. On alternate years since then, the Army has had to have higher draft calls to replace men released from service.

New Cars Sold After July 1 Must Be Equipped With Turn Signals

SPRINGFIELD — Auto dealers were reminded today that all new cars sold in Illinois after July 1 must be equipped with turn signal devices.

The Illinois Automotive Trade Assn. said its next bulletin to dealers will outline provisions of the new law, which was passed by the 1953 Legislature.

It requires that after July 1, 1954, all new cars sold here "be equipped with a signal device for indicating the intention of the driver to turn to the right or to the left."

The law does not apply to trucks. New car buyers will pay from \$12 to \$20 for factory-installed signal lights available on all makes of cars.

Reader's "Aid"

Because he found so many systems of punctuation in use, Timothy Dexter wrote a book, "A Pike for the Knowing Ones," and omitted all points in the text, but printed five pages of nothing but punctuation marks at the end, for the reader to use as he might wish.

GOP Committee Holds Closed Door Meeting

WASHINGTON — The Republican Party's 15-man executive committee discussed plans today for a full-scale national committee meeting in late summer or early fall at some Midwestern city.

Chairman Leonard W. Hall said no decision was reached at a closed-door morning session on where the National Committee meeting will be held. The executive committee talked of going to Mackinac Island, Mich., about Labor Day but reached no final decision.

Hall said the name of Sen. Joseph R. McCarthy (R-Wis.) did not figure in discussions of GOP campaign plans. There had been some speculation that McCarthy's possible role in the November congressional elections would be discussed by the executive committee.

Hall said that if the National Committee session is not held at Mackinac Island, it will be held at some Midwestern city. It was understood that some members objected to going to Mackinac on the grounds that the Republicans would lay themselves open to criticism for meeting in a plush resort area.

Hall said the National Committee meeting would be a "work session" with subcommittees named to plan various phases of the campaign, including lining up speakers, defining issues, and improving organization.

Hall has said McCarthy will not be listed among the GOP National Committee's Speakers Bureau which assigns official party spokesmen in close election contests.

Traditionally candidates request

3 Held for Attack On Alderman Trying To Arrest Them

CHESTER, Ill. — Three Missouri men have been charged with assault with a deadly weapon and aggravated assault for allegedly beating an alderman who tried to arrest them for traffic violations in Red Bud, Ill., Wednesday night.

State's Atty. William A. Schuwerk said the charges were filed against James Acers, 21, and Charles Sellers, 23, both of Ironton, Mo., and Joe McMullin, 19, St. Louis. No date was set for their arraignment and no bond had been set.

Schuwerk said Ray Sellers, 35, of St. Louis, who was with the three before the attack, probably would be released.

Alderman Wilbert Braun stopped the men for speeding and reckless driving. As he got out of his billfold to show proof of his power of arrest, he was slugged. He went to a service station to call police.

While Braun was phoning, the men entered the station, locked the door and began beating him with fists and a tire iron and kicking him until he was unconscious, authorities said. Braun suffered a broken jaw and lacerations on the head.

Edward Barbeau, the station owner, saw the attack from outside the station. He kicked in a rear door and went to Braun's aid. Barbeau, a 200-pound 6-footer, knocked the three down and was waiting for a second attack when police arrived.

Ray Sellers was picked up later in a Red Bud tavern. Schuwerk said the three men charged with the attack refused to make any statements about it.

Practical Nurses Meet at Flora

The regular meeting of the Licensed Practical Nurses Association of Illinois, District 12, was held at Clay County hospital in Flora, Thursday, May 13.

Dr. Paul Naney gave a talk on "Care of a Cardiac Patient," and showed a film on "The Nursing Care of a Cardiac Patient." Mrs. Nell Ferrell, Eldorado, was nominated by the members to attend the workshop at Denver, Colo., which will be held in the near future. This workshop is an educational training program and is approved by the department of registration and education.

The next meeting will be held at Herrin, June 17, and at this session the state president will be present. All licensed practical nurses who are members of this association should attend.

speakers from the GOP committee to address party meetings in their districts. Hall said any specific requests for McCarthy as a speaker would be referred to McCarthy's senate office.

Hall, it was understood, was prepared to vigorously support his ruling if it was challenged.

The announced reason for the closed-door executive committee meeting was to make plans for a full national committee session to be held next September at Mackinac Island, Mich. Also scheduled for discussion was the forthcoming congressional campaign.
